APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date	e of filing in State Engineer's Office MAR 1 9 1979
Reti	urned to applicant for correction. JUN 1 8 1979
Cori	rected application filed
	AUG 1 7 1979 under 37068
- -	
	The applicant Falcon Exploration Co.
190	00 Powell St. #930 of Emeryville Street and No. or P.O. Box No. City or Town
Ca1	if. 94608 , hereby makes application for permission to appropriate the public State and Zip Code No.
wate	ers of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion:	; if a copartnership or association, give names of members.) Peter E. Galli and
	verett E. Berg
1.	The source of the proposed appropriation is underground (We11 #2) Name of stream, lake or other source.

2.	The amount of water applied for issecond-feet One second-foot equals 448.83 gals, per minsecond-feet
	(a) If stored in reservoir give number of acre-feet.
3.	The water to be used for mining, milling & Domestic Irrigation, power, mining, manufacturing, domestic, or other use.
	Irrigation, power, mining, manufacturing, domestic, or other use. If use is for:
٦.	(a) Irrigation (state number of acres to be irrigated)
	(b) Stockwater (state number and kinds of animals to be watered)
	(c) Other use (describe fully under "No. 12, Remarks")
	(d) Power:
	(1) Horsepower developed
	(2) Point of return of water to stream.
5.	The water is to be diverted from its source at the following point: within the NE 4 NW Sec 35, T.2N.,
	R.42E., MDB&M at a point from which the N ¹ / ₂ corner of Sec 34, T2N, R42E bears N., Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
	77º 06' 23" W., a distance of 4739.62 feet
6.	Place of use within the SE Sec 27, SW Sec 26, NW Sec 35, NE Sec 34, N ¹ / ₂ SE Sec 34 Describe by legal subdivision, if on unsurveyed land it should be so stated.
	all within T.2N., R.42E. MDB&M.
. ~	Use will begin about Jan 1 and end about Dec 31 , of each year.
7.	Day and Month Day and Month .
8.	Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
	specifications of your diversion or storage works.) drilled & cased well pump & motor, storage
	tank & distribution system State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated time required to construct works. 3 yrs 1. Estimated time required to complete the application to beneficial use. 5 yrs 2. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. Annual consumption is unknown at this time. When development plans are completed the exact consumption will be supplied Talcon Exploration Will be supplied Applicant Falcon Exploration Go. 8/ By Ross E. deLipkau F.O. Box 2790 Compared 1p/ga. 9k/js Reno, Nev 89309 APPROVAL OF STATE ENGINEER This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is nearly that the amount of water herein granted is only a temporary allowance and hat the final water right, obtained under this permit will be generated upon the mount of water actually placed to beneficial use. It is also understood that the amount of water herein granted is only a temporary allowance and hat the final measurements of water user kept. In the well-shall be generated upon the mount of water actually placed to beneficial use. It is also understood that this ight must allow for a reasonable lowering of the static water level at permittees? ell due to other ground water development in the area. A measuring device must be installed, and measurements of water use kept. The well is flowing, a valve must be installed, and meintained to prevent, waste, he well shall be gaughed with a 2- Inch opening for measuring depth to water. If the well is flowing, a valve must be installed, and meintained to prevent, waste, he well shall be gaughed with a 2- Inch to continued duty of water under this permit and Permits 37068 and 38843 hall not exceed 262.8 million gallons annually. Chall construction work shall be filed before. Pebruary 15, 1981 February 15, 1981 February 15, 1982 February 15, 1984
